

Action Inquiry and the Global Leadership Profile Workshop

Monday 15th - Thursday 18th October 2018, Boston

is a **3.5-day workshop** for business leaders, consultants, coaches, researchers, and sustainability practitioners who wish to further their personal development and learn about the power and practice of Collaborative Developmental Action Inquiry—the only approach statistically confirmed as reliably generating both personal and organizational transformation.

All workshop participants take the **Global Leadership Profile (GLP)** and receive feedback on their centre-of-gravity, emergent, and fallback leadership action-logics. Those who wish can become authorized to use and debrief the **GLP** with their clients.

Action Inquiry is the only program that comprehensively blends the what, why, and how of transformational leadership development, including:

- 1) the theory of Collaborative Developmental Action Inquiry (CDAI)
- 2) the assessment of leaders' predominant action-logics (either using the **GLP** or in-action diagnoses), and
- 3) the ongoing practice of **Action Inquiry** at the personal, team, and organizational scales

The Workshop Experience

At our workshops you will never be passively hearing somebody telling you how to do it right. Rather, you will be exercising active listening and leadership, moving among peers in a community of inquiry, receiving direct feedback about your leadership impact, thereby learning together practical ways to help yourself and others:

- Assess current leadership action-logics—the centre-of-gravity, emergent and fallback perspective that guide action and influence results
- Become conscious of and shift action/ mental/ emotional habits that are limiting effectiveness
- Exercise personal power with greater flexibility and mutuality to generate personal and organizational transformation
- Develop collaborative practices that increase mindful, relational, and cultural intelligence in the wider organization
- Build capacity to lead from the inside out, confidently responding to the deepest calls of our human nature and of the natural world that holds us

Participant Comments on the AI & GLP Workshop

Led by Elaine Herdman-Barker, Nancy Wallis, and Bill Torbert

BOSTON, LONDON, AND SYDNEY

"I attended an AIA Action Logics seminar in March 2016. I can't speak highly enough of the professionalism of Bill, Nancy, and Elaine. Through their nuanced seminar, I was able to confirm my own action logic center of gravity and gain a sound understanding of how to evaluate others. The most impressive aspect of the seminar for me was when Elaine and Nancy were able to help me see and feel what it is like to operate at a stage later than my own. The perspective they gave me solidified my understanding of how much work I yet have to do at my current stage if I am ever to move to a further stage. Words on paper don't do justice to the glimpse I had of that level at a peak moment and the wonder experienced during this seminar. It truly was action logics in action."

Joe D., National Security Professional

"It was an outstanding program, it really stretched my thinking which was exactly what I wanted. I left with both a sore head and what feels like a much bigger perspective. Thanks!"

Nick Petrie, Senior Faculty, Center for Creative Leadership

"Thank you for creating such an inviting and safe space for personal learning, exploration, and fun! What a wonderful group of people you attracted to the workshop – the openness and generosity of spirit was palpable! I have a heightened appreciation for how valuable being in a community of inquiry is to growth and development."

Beth Massiano, Consultant and Executive Coach

"As an experienced consultant working in the people and change space, I have invested in a variety of personal development experiences over the years. The GLP workshop and related support has been, by far, the most valuable of these. The process of completing the sentence stems, receiving the profile report, dialogue at the workshop and subsequent coaching took me to a depth of reflection beyond what I have experienced from other interventions. My actions have become more sophisticated and are being received with more appreciation than would have been the case before exposure to the GLP. I am now back in a full time role and draw heavily on the insights gained from the GLP to make wise choices in the face of a myriad of emerging opportunities and challenges . . . and the learning has no end."

Chris Corbin, Director, Wild Guava, England

"Train with leading industry scholars and facilitators, and receive personal and organizational-specific feedback. To date, I have not experienced such detailed and tailored attention on my own personal leadership style from a workshop. You'll walk away with deep learning that will transform how you teach, guide, and work with others."
