# Vertical Leadership Development, Action Inquiry and the Global Leadership Profile (GLP) Certification Programme

May 2022: 3, 5, 9, 11, 17, 19, 24, 26, 31

This enhanced, deep dive programme is ideal for business leaders, consultants, coaches, researchers and sustainability practitioners who wish to further their personal development and learn about:

- Action-logics – the developmental paradigms through which we think and act
- The power and practice of Collaborative Developmental Action Inquiry—the only approach statistically confirmed as reliably generating both personal and organisational transformation.

All participants take the ground-breaking tool, the **Global Leadership Profile (GLP)** and receive feedback on their centre-of-gravity, emergent and fallback leadership action-logics. Those who wish to become authorised to use and debrief the **GLP** with their clients are required to participate in this programme and a short follow-up Certification module.

Offered by Elaine Herdman-Barker and Richard Izard alongside a facilitation team of our senior associates and members of our international coaching bench, this programme comprehensively blends the what, why and how of transformational leadership development, including:

- 1) The theory of Collaborative Developmental Action Inquiry (CDAI)
- 2) The assessment of leaders' predominant action-logics (either using the **GLP** or in-action diagnoses), and
- 3) The ongoing practice of **Action Inquiry** at the personal, team, and organisational scales
- 4) Learning how to introduce a developmental approach into a teams and organisational context

## Our Enhanced Workshop Experience

At our events, you will benefit from the dynamic and interactive conversation and experience from other participants such as HR specialists, Leadership & Development experts and academics who will be together with you throughout.

Together you will learn practical ways to help yourself and others:

- Assess current leadership action-logics—the centre-of-gravity, emergent and fallback perspectives that guide action and influence results
- Become conscious of and shift action/ mental/ emotional habits that are limiting effectiveness

- Exercise personal power with greater flexibility and mutuality to generate personal and organisational transformation
- Develop collaborative practices that increase mindful, relational and cultural intelligence in the wider organisation
- Build capacity to lead from the inside out, confidently responding to the deepest calls of our human nature and of the natural world that holds us.

Your facilitation team, with their rich experience, will be on hand to answer any questions and to support your on-going inquiry through a number of additional, online developmental café sessions, a pre-course meet and post Workshop check-in.

## How It Works

The programme includes three streams that run in parallel:

**Workshops:** Nine highly interactive workshop-webinars. These webinars introduce you to the foundational theory and you'll do a deep-dive on the action-logics. In addition, there will be specific sessions on action-inquiry and organisational development/teams.

**Individual learning:** As well as taking the GLP you'll also get to use the digital Transformation Cards. We'll also be regularly offering other resources to support your learning journey.

**Developmental cafes:** participants join a developmental café for the duration of the programme. Cafes are made up of four-six participants and are facilitated by a member of our team. These cafes will allow you to explore questions in depth and will help you adopt the action-inquiry approach (approx. six hours)

All of this is supported by cutting-edge but simple to use technology that helps maximise your learning experience.

## About the GLP

The GLP and its companion report, help us understand our current frameworks of thinking (action-logics). We are then able to make better sense of ourselves, others, and the contexts/systems around us. It helps us question our current mindsets and paradigms and begin to shift them if appropriate. The reports offer coaches a rich resource to draw from that can lead to many powerful coaching inquiries and explorations. By measuring and analysing action-logics we are able to see more clearly the subtle dynamics at work within leaders, teams and organisations. Working on these can lead to deep transformations.

Over 50 years of research and real-world engagement points to the GLP instrument and GLA's Action Inquiry approach being world leading; impacting both individual and organisational transformations. Aside from the sentence-completions, the GLP asks participants to both complete a Self-Estimate and gather feedback from colleagues. This multi-perspective approach to assessment models the richness of inquiring into both one's own and others' viewpoints. Each profile has a personalized commentary based on the leader's own sentence responses. This enables leaders to effectively explore in coaching, the patterns that will make the most difference to their leadership contribution.

## GLA Workshops – Client Testimonials

---

*“The Action Inquiry & Global Leadership Profile Virtual Programme was excellently organized, with a strong energy and engagement flowing through the group for the whole week. The collaborative way of working enabled deeper discovery of the stages of adult developmental maturity, and I gained an intimacy of realization about each stage, along with the capability to administer and debrief the GLP instrument with clients.”*

Paul O'Donovan Rossa, Executive Coach

*“It is clear from taking the GLP Certification Workshop how Elaine and her team have been listening and taking action at the leading edge of human development for several decades now. The way they have translated their work into a meaningful, disciplined framework for leadership development and organisational transformation is staggering in its implications, elegant in its simplicity, and humbling in what it represents: a beacon of light in the midst of a complex world filled with shadows. Prosaics aside, the GLP also has a “role up your sleeves and get boots on the ground” kind of pragmatism about it.”*

Christopher Chang-Duffet, Executive Director, Humaxis, Inc.

*“I attended both the recent London accreditation Workshop and also the Advanced Practitioner Programme, which invites you to take a deeper dive and answers the ‘what next’ question, developing a wider community of practise and inquiry. The space was creative and inviting in anticipation for learning, exploration and living the theory. I was joined by a group of wonderful, like-minded people who were happy to share their rich experiences, both professionally and personally. Elaine in particular is a wonderful facilitator – She manages to create a perfect balance between academic rigour and skilful use of art, metaphor and story-telling for making complex concepts not only accessible, but also much easier to integrate by the audience.”*

Alis Anagnostakis, Consultant and Executive Coach

*“I recently attended the Action Inquiry & Global Leadership Profile (GLP) Workshop in London and am a complete convert. The idea of Vertical Development through GLA's specific lens and industry leading measurement tool, the GLP, has massive potential for both personal and professional development at all levels of an organisation. I arrived at the Workshop steeped in various theories and models with which I was currently working at doctoral level; meaning that I was very curious and even more sceptical! However, Richard and Elaine patiently and expertly guided us through making sense of the action-logics and GLP, and importantly, were able to ground their claims in strong academic research. Since the Workshop, I have engaged with the action-logics and theory in various settings all with great success. I have personally developed tremendously as a direct result of completing the GLP and having attended the event.”*

Niel Stander, Sensibus Consulting

*“It was an outstanding programme, it really stretched my thinking which was exactly what I wanted. I left with both a sore head and what feels like a much bigger perspective. Thanks!”*
