GLA Certification Programme in Vertical Organisational Development

January 2023: 31 and February 2023: 2, 7, 9, 14, 16

This programme is ideal for coaches, consultants and corporate organisational development practitioners who wish to further their developmental learning within an organisational context and explore:

- Organisational Stages of Development – how organisations can grow developmentally.
- The organisation as a Human (Complex Adaptive) System – how a systemic view of change differs from traditional change methodologies. This includes exploring informal and formal systems and using constellation tools in organisations.
- Liberating structures – how forms of organisational structure can guide organisational transformation.
- The 'I to We Bridge' - how to support developing leaders fit into, increase contribution to, and shift their organisational context.
- Designing Vertical Leadership Interventions.
- Organisational Pullbacks: Where do they get stuck? When is it helpful and when is it not so? How do we unstick the stuck?
- Organisational Culture through a Vertical Lens.
- Collaborative Developmental Action Inquiry (CDAI) as an Engine for Transformation.

Offered by Richard Izard and Danny Morris alongside a facilitation team including our Senior Associates and members of our International Coaching Bench, this certification programme comprehensively blends the what, why and how of organisational transformational development. The facilitation team, with their rich experience, will be on hand to answer any questions and to support on-going inquiry through a number of additional, online Inquiry Labs sessions.

If not already completed, all participants take the groundbreaking tool, the Global Leadership Profile (GLP) and receive feedback on their centre-of-gravity, emergent and fallback leadership action-logics through a group debrief session.
