

Power up your coaching conversations with MyWorldView's latest feature - the coach report.

We're thrilled to have gone live with MyWorldView coach reports. This new feature, added at no extra charge, is all about resourcing coaches. It provides practitioners with a downloadable PDF to accompany their coaching conversations.

Content includes:

- how the client-user has profiled
- the client's self-estimate, and their estimation of their organization's worldview culture
- all of the client's selections and reflection responses from the digital debrief
- easy to access link to the MWV content flipbook
- thumbnail reference of all the worldviews
- FRAME model for structuring coaching conversations

Practitioners will find coach reports automatically appearing on their MWV dashboard once your client's profile has been scored.
