QUARTERLY PRACTITIONER FORUMS

What if you could help teams see the deeper patterns shaping how they collectively think, relate and operate?

Over the past two years, Global Leadership Associates and Renewal Associates have developed and researched **OurTeamView** and **OurTeamView in Action** - vertical team assessments designed to bring these patterns into view and create new possibilities for team development.

Following two research cohorts with experienced systemic team coaching practitioners, we're now opening OurTeamView more widely through a **12-month Founding Practitioner pilot**.

Add OurTeamView to your practice

For **US\$999**, Founding Practitioners receive:

- Unlimited use for 12 months with your own client teams
- Both the OurTeamView Team Self-Assessment and OurTeamView in Action Observer Assessment
- Four quarterly online Practitioner Forums
- A community for exploring real client situations and sharing emerging best practice
- The opportunity to help shape the future of OurTeamView

There is **no minimum number of teams** you need to work with.

One client could cover your investment.

Practitioners involved in our research indicated they could envisage charging around **£1,000 / US\$1,350 per team** for the assessment, in addition to their professional time for debriefing and wider team development.

With unlimited use for US\$999, one client engagement could potentially cover your entire pilot fee.

Apply, learn and help shape what comes next.

This is more than access to an assessment. It's a learning partnership with an experienced practitioner community.

Together, we'll explore where OurTeamView creates the greatest value, how it complements individual vertical development assessments, and how best to integrate it into wider team coaching and development.

Your experience will also help shape the resources, support and future practitioner model for OurTeamView.

Pilot: October 2026 - September 2027

Become a Founding Practitioner

If you'd like to add a distinctive vertical team assessment to your practice, use it with your clients and help shape its future, we'd love to have you involved.

Complete the registration form to secure your place. **Payment plans are available.**
